FAQ

What sets PT Final Exam apart from other prep providers?

PT Final Exam is a grassroots company that employs only licensed PT instructors with the heart of a teacher. PT Final Exam is also the only company to allow customers to post real user reviews (rather than just a few hand-picked testimonials).

What are your pass rates?

We have some of the best pass rates in the industry (> **90%** for full participants). This is an especially strong number when considering that we have a multitude of higher-risk students who use PT Final Exam as a remediation course.

Who are your instructors?

Each instructor is a board-certified physical therapist with extensive knowledge of the NPTE and review strategies. Questions are written to mimic the scope and content of the NPTE by FSBPT-trained PT item-writers.

How much does it cost?

With group plans as low as \$100/student, we have a variety of options to fit your needs.

Can your class be incorporated into our curriculum?

Yes! We can run our classes at any time, making it extremely convenient to the students during their final few months of school, especially if they are out on clinicals.

FINAL EXAM

At PT Final Exam, we believe the most effective way to study for the NPTE is with a mentored framework. That's why we journey with your students through an intense study course which combines synchronous and asynchronous learning.
